PROFESSIONAL SUMMARY

Front-End Web Developer with a strong grasp of HTML, CSS, JavaScript, jQuery, and Bootstrap. Confident working with React.js to build clean, responsive, and interactive web interfaces. Comfortable using Git and collaborating with teams to bring ideas to life. Recently graduated in IT, always curious, and eager to explore new technologies as the industry evolves. Passionate about learning, building, and growing in the ever-changing tech world.

AREAS OF EXPERTISE

- HTML5 & CSS3
- JavaScript
- React.JS
- Bootstrap & Tailwind CSS

- MySQL
- Python
- Git & GitHub
- Problem Solving

- Effective Communication
- Critical Thinking & Self Learning

WORK EXPERIENCE

Web Development Internship, *Subtle Marketing, Lahore*   JUL 2025 – SEP 2025

Worked on multiple web development projects focusing on building responsive and user-friendly applications using React.js, JavaScript, Bootstrap, and Express.js. Developed real-world solutions including a text utility app, to-do list manager, and authentication pages. Gained hands-on experience in front-end and back-end integration, API development, version control with Git/GitHub, and ensuring mobile-first responsive designs.

Front End Web Development Internship, *Code Cesium, Multan*   Oct 2024 – Dec 2024

Completed a 3-month front-end web development internship at Code Cesium, where I built responsive user interfaces using HTML, CSS, JavaScript and Bootstrap. Gained hands-on experience in debugging, cross-browser compatibility, and collaborating in an agile environment using Git and real-world workflows.

PROJECTS

Rockman Masonry (React + Bootstrap App)

- Developed a responsive multi-step form with progress bar and dynamic UI elements.
- Created selectable cards with active state styling (blue border +background).
- Built responsive design for desktop and mobile.
- Integrated a carousel and services section styled with Bootstrap.
- Used Git & GitHub for version control and project collaboration.

Text Utility App (React.js)

- Developed an app for text manipulation (convert to uppercase, lowercase, clear text, copy text) Added word and character count functionality for real-time tracking.
- Implemented estimated reading time calculator.
- Designed clean UI with Bootstrap integration for better user experience.

Text Utility App (React.js)

- Developed an app for text manipulation (convert to uppercase, lowercase, clear text, copy text)
- Added word and character count functionality for real-time tracking.
- Implemented estimated reading time calculator.
- Designed clean UI with Bootstrap integration for better user experience.

EDUCATION

MNS UNIVERSITY OF AGRICULLTURE, BS Information Technology   2021-2025
